

# THE CITIZENS' COUNCIL

Dedicated to the maintenance of peace, good order and domestic tranquility in our Community and in our State and to the preservation of our States' Rights.

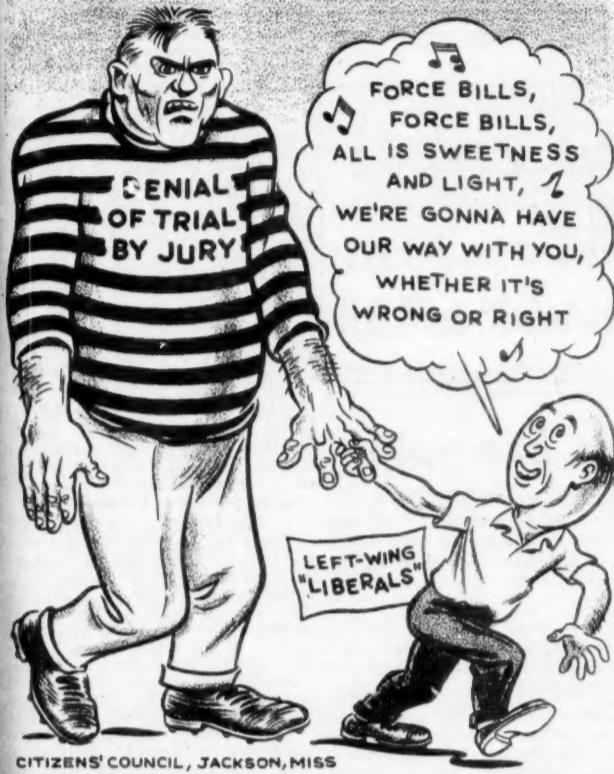

Vol. 2, No. 10

OFFICIAL PAPER OF THE CITIZENS' COUNCILS OF AMERICA—JULY, 1957

Jackson, Mississippi

## What The 'Comrades' Plan For You

### Organized 'Tolerance'

CITIZENS' COUNCIL, JACKSON, MISS.

### By Formal Resolution:

### Veterans And Councils Blast VA Integration

Opposition continues to mount to integration of the proposed new 11-million dollar Jackson, Miss. veterans hospital, to be located in the heart of white neighborhoods adjacent to white schools, colleges and parks.

A number of veterans groups have adopted strongly worded resolutions in opposition. In addition to the Mississippi Association of Citizens' Councils, several local Councils have protested vigorously.

The Jackson Citizens' Council has released the following statement pointing out the consequences of such an integrated facility:

In view of the developing situation with respect to the proposed integrated Veterans Administration Hospital in North Jackson, the Board of Directors of the Jackson Citizens' Council feel it their obligation to inform the citizens of Jackson and Hinds County of some serious facts in this matter that may not be fully appreciated.

Our state Executive Committee has already pointed out that integration in veterans hospitals was ordered by the executive department of our federal government without the requirement of law, and at the specific urging of various special interest minority pressure groups. Our state Executive Committee has registered a

(Continued on Page 4)

### TVA Insists On Mixing At Cafe

Economic pressure has been exercised by the Tennessee Valley Authority against a luncheonette operator whose license is being revoked because she will not agree to serve colored T.V.A. employees.

Mrs. Clara Angel, who with her husband holds the license to operate the small eating place in the Electric Power Board building, said it had been her impression the Government Agency would not interfere in any way.

When T.V.A. informed Mrs. Angel that she must serve Negro employees, she replied that she "could not operate on that basis".

### Are Some Church Leaders Betraying Their Country?

(Guest Editorial  
By Stanley F. Morse  
President, Grass Roots League, Inc.  
Charleston, S. C.)

Extreme ignorance in clergymen and other "educated" leaders of our churches is inexcusable. Yet pronouncements by the General Assemblies of the Presbyterian Churches, South and North, the National Council of the Protestant Episcopal Church, the Methodist Church, Southern Baptist Convention, National Council of the Churches of Christ in the U. S. A. (if it can be called a "religious" organization), et al., opposing racial segregation indicate that these churchmen are ignorant of such basic laws of God as genetics (breeding and heredity), of the FACTS revealed by anthropology and ethnology (study of mankind's development), and the lessons of history. If they were familiar with this basic knowledge, they could not honestly advocate racial social equality and mixing because they would know what the ruinous biological results would be.

Even a smattering of plant and animal breeding must convince any sensible person that the product of hundreds of years of painstaking breeding of, say Hereford or Jersey cattle, can be destroyed overnight by permitting a scrub bull to run with purebred cows.

Since the laws of genetics also govern the development of human beings, history recounts that the fall of most great civilizations like Egypt and Rome was hastened by the interbreeding of their constructive, pro-

gressive population with barbarians and slaves to produce a mongrel race. It is a part of the Communist Conspiracy to degenerate Caucasian Americans into mongrels by causing them (by propaganda and federal force) to mix with negroes. Why are these religious leaders following the "Communist line" which aims at changing the U. S. A. into the "Soviet States of America?"

Jesus warned of "false prophets" (Matthew 15). Thus, many "intellectuals" and "liberals" with high ideals and laudable motives have been deluded by Red propaganda into believing that there is a "Christian Socialism" which would eliminate poverty and trouble and stabilize human happiness and prosperity. These dupes, working under "a cloak of respectability" (as F. B. I. Director J. Edgar Hoover calls it), preach a "social gospel" instead of the spiritual Gospel proclaimed by Jesus Christ. Unwittingly they are working for the spread of Communism which is the deadly enemy of Christi-

Moreover, although many of these ministers may sincerely believe in the Marxian ideology with which they have been infected, their active advocacy of these Socialistic theories is so contrary to the natural laws (i. e., Divine laws) and to human experience as revealed by history that most sensible, educated persons tend to lose confidence in the leadership of such clergymen. This is seriously weakening the Christian church and may cause its break-up, thus aiding the Red attack on reli-

"Your church is the number one target of the Communist Conspiracy in America" says Herbert A. Philbrick, noted F. B. I. counter-spies against the Communist Party. The effective method of indoctrinating young ministers with Red ideology and schemes has been to convert to Communist philosophy many faculty members of theological seminaries. At least 45 of the 177 Protestant theological seminaries in the U. S. have been thus Red-infiltrated, according to a former research director of the House Committee on Un-American Activities. This, plus Marxist propaganda in other schools and colleges, accounts for the large number of clergymen (nearly 8,500 according to public records) now following the "Communist line."

Misguided Christian clergymen should realize that their "liberal" preachers and activities are helping to betray our American Republic—and Christianity itself.

All loyal Americans who are Christians should enlist in a campaign to purge their churches and colleges of subversive dupes and secret Reds—before it is too late.

A number of local Baptist, Methodist and Presbyterian churches in Alabama, Georgia, Louisiana, Mississippi and South Carolina are taking positive steps to meet the danger pointed out by Mr. Morse. Some congregations have moved to withhold funds from the radical "social gospel" commissions within their denominations.—Ed.)

### Reds Openly Talk Plans To Agitate Racial Issues

The recent television appearance of "Comrade" Nikita Krushchev, successor to Josef Stalin as head of the Moscow Politburo and dictator of Communist Russia, coupled with proposals to exchange broadcasts on national hook-ups in the U.S.A. and U.S.S.R., prompts an inquiry into the most recent pronouncements of the Communist Party on the race question.

The Senate Internal Security subcommittee has said as recently as June 23, 1957 that the Communist party in this country is still "a disciplined agent of Moscow." An examination of the official proceedings of the 16th National Convention of the Communist Party, U.S.A., held in

New York City February 9-12, 1957, should convince even the most skeptical just who is behind the race agitation now rapidly becoming the foremost national issue.

#### PLAN OF WORK

Reporting for the Plan of Work Committee at the convention, "Comrade" Steve Nelson says in part: "There were two central questions that were agreed to that we should emphasize in closing this convention. It was felt, comrades, that, in the spirit of what most comrades had to say on the matter confronting the Negro people in this country, that that be the point we should emphasize here, the point on which we should concentrate our work when we go back from here, and that is, the whole struggle for Negro rights to be a long-range proposition before us, as we return to our districts. . . . The point that we wanted to stress is that the Communist participation in this work on all levels can deepen this struggle, and can bring greater meaning to it. I think we are all heartened by the fact that a new thing has developed in our country with reference to the question of Negro rights. I don't think that we have ever had a situation where so many people of diverse opinions are interested in the Negro question one way or another. We are urging, therefore, that we don't try to invent campaigns, we don't need to. What we do is to go back into our districts and put it on the agenda, and see what is going on in the community, and see in what way we can deepen that struggle in the various communities." (Emphasis added).

#### NAACP'S "FREE BY '63"

"Comrade" Steve strikes very close to home as he says, "What we are trying to say is—examine this question, everywhere in your community, make this the major campaign in the spirit of the NAACP, in the long-range way—"Free by '63"—not a campaign that starts today to finish tomorrow, but a long-range one. So that's one of the recommendations we made; concentrate on this issue."

#### MAIN RESOLUTION

Later in the convention, in the "main political resolution" adopted by the 16th National Convention, we get the full blast, as follows. Emphasis is exactly as appears in the printed text.

"Over a half million Negroes in deep Southern cities are participating daily in organized direct actions to break the Jim Crow barrier in bus transportation. More than a hundred thousand are engaged in organized campaigns on a single issue—to secure the right to vote; they aim to utilize the ballot as a weapon in the struggle to desegregate and to democratize Southern life." (Democratize means, of course, complete social amalgamation.)

The resolution continues, "In scope, militancy and effectiveness the Negro People's Movement has reached a maturity unparalleled in recent generations. . . .

"Now is the time for all progressive Americans (integrationists) to add the full force of their power to the great lever for democracy (dictatorship of the proletariat) forged by the brave struggles of Southern Negroes. Now is the time for all believers in democracy — by strengthening and heightening even further the great

Negro people's offensive against hide-bound reaction (they mean you)—to raise to new heights the whole plane of democratic opportunity for all to struggle for social progress (communist style) in our country. . .

"The question of Negro freedom (integration), then, is the crucial domestic issue of the day, and a factor of growing international consequence. (Have you heard it said that we must integrate to please the Red Chinese, Nehru's segregated India, the Hot-tentors, the Fuzzy Wuzzies and other 'lovers of democracy'?)

"Negroes unite not in order to separate themselves from the political, economic or social life of our country. They unite to more effectively employ the strength of their own numbers and the weight of their alliance with other parts of the population to level all barriers to their full integration into all aspects of the economic, political and social life of the American people as a whole. They are forging an internal national unity to facilitate their struggle for full integration as free and equal American citizens."

"Against the background of this estimate of the Negro people and their liberation (integration) movement, what are the special tasks and responsibilities of Communists? First and foremost, it is the obligation of the vanguard Party of the American working class to lend every support to the Negro people's struggle. This is the main uncompleted democratic task of our country; and its fulfillment will enormously advance the goals of the working class and our entire nation.

"(It would be difficult to imagine a more explicit statement than the foregoing that racial integration would "enormously advance" the Communists' goal of taking over the United States. Mind you, this is not an editorial opinion of a "biased" Southerner. It is an official statement from the Communist Party itself.)

#### PROGRAM OF ACTION

What is the program of action? We are told quite clearly in the resolution.

"All Communists, and all progressive Americans, are called upon to marshal their maximum strength to enhance the liberation (integration) movement of the Negro people. This requires:

"1. Full participation in and support of the all-sided anti-segregation movement in the South. This is a battle to remove a festering, unsightly sore from the national body politic; etc., etc., to enforce the Constitution of the United States as interpreted by the Supreme Court. (Have you heard that one before?) A popular and irresistible demand must arise for Congressional action to end filibustering and pass civil rights legislation. (Continued on page 4)

### Indians Balk At Integration Plan

Indians on the Garden River reserve near Sault Ste. Marie, Ontario, are prepared to tomahawk a plan which would transfer 150 of their children to a white school next fall.

One spokesman is quoted as saying, "Every woman in our tribe has sworn she will go to jail before allowing."

The school is six miles away. The mothers are said not to object to the distance but to the fact that their children would be "rated second class people" and "made to feel inferior" in a school attended predominantly by whites.

## Krushchev In Your Home

Information and propaganda related to the T.V. assault by Communist leader Nikita Krushchev against these United States have caused some very pertinent questions to be raised.

(1) Have the people responsible for the broadcast overlooked the fact that the Russian government and the United States have long been fighting a war to the finish? That war now is in its 40th year. It is a psychological war, and this country has lost most of the battles in that 40-year old war because of the Trojan Horse tactics and internationalism promoted from within.

(2) When an exchange of national hook-up television broadcasts between the United States and Russia is proposed, is it remembered that there are only 14 local T.V. broadcasting stations in Russia to trade for the "use" of 1,349 T.V. broadcasting stations in the United States?

(3) Is it remembered there are less than 1.5 million T.V. receiving sets in Russia, where only bureaucrats and government agencies have money enough to own and maintain a receiving set? In the United States there are 42 million T.V. receiving sets which could provide the Kremlin murderers an audience of 100,000,000 people.

(4) Do the advocates of such an "exchange" expect the Communists to die from laughing at us?

(5) If the United States government plans to admit the Kremlin's spokesmen into our living rooms, why spend money to fight Communist agents?

(6) Who is stupid enough to believe that the Communist Party in Russia or anywhere would give a true translation from English to Russian of anything that is even suspected of harming the Communist conspiracy to conquer us? Ignorance is blissful to some, but it does not provide security.

(7) Are we neutralized? Are we going to sit like phonographs, and repeat and repeat and repeat and repeat that which can bring only our destruction?

(8) Can we expect the internationalists in the U.S. State Department to win a psychological battle for the United States?

It would appear that our independence as a free people can be saved only by a citizenry which quickly experiences a revival of national loyalty. Our children need to be taught an un-adulterated patriotic enthusiasm for these United States.

The white people of the Southern states, long known as among the most solidly patriotic in the country, have an intensely personal interest in this matter. What "Comrade" Krushchev and the other "comrades" have in store for us is related in some detail elsewhere on these pages.

## 1957 Membership Drive

By now, Councils in all states should have completed their 1957 membership drives.

In the well-organized states, peace and quiet reign on the racial front. Mississippi has not had a single school integration suit. Racial agitation by the integrationists is at a minimum. Because of this peace and quiet, many Council members think that the fight is over, that there is no longer any need to be alert or to support the battle for states' rights and racial integrity in other states.

The Citizens' Council can be compared with a fire department. While not fighting fires, the department continuously carries on an educational program for fire prevention. The Citizens' Council has been carrying on, and is still carrying on, an integration prevention program, accomplished peacefully, lawfully and quietly. An ounce of prevention is worth a pound of cure.

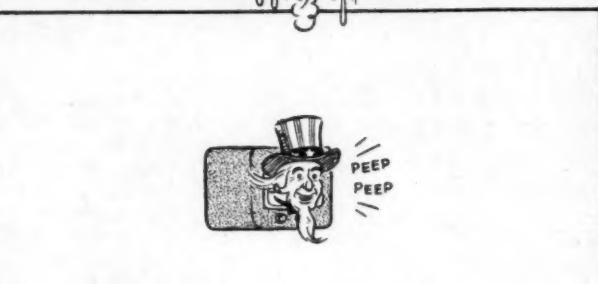

We hope there will never be any trouble on the racial front, and if the white people are united and alert to propaganda and agitation for integration, there will not be any.

While great results have been accomplished by the Councils, the fight is not yet over, and it would be sheer folly to let up until the danger of judicial tyranny and mongrelization no longer exists. Your State Associations cannot continue without the support of the local Citizens' Councils!

If everyone will do his part, as small as it is, we can maintain strong, potent organizations. The responsibility for carrying on this fight rests with every citizen, not just a few. We all have an equal stake in our future.

The least we can do is to get in our membership dues. Has your Council completed its membership drive for 1957, and mailed in its membership contribution to its State Headquarters? If not, please do so at once.

## A Fair Exchange?

USSR-TV

CITIZENS' COUNCIL, JACKSON, MISS.

## Georgia's Fine Example

The sovereign state of Georgia, in a move that has caused nation-wide comment, has thrown down the gauntlet to the Congress on the question of the validity of the Fourteenth Amendment. Will the Congress accept the challenge? No other state in the Union has more clearly perceived the dangers of judicial encroachment than Georgia. And no state has been more steadfast in resisting them.

The Georgia memorial to Congress reads thus: "A memorial To The Congress of The United States of America Urging Them To Enact Such Legislation As They May Deem Fit To Declare That The 14th and 15th Amendments To The Constitution Of The United States Were Never Validly Adopted And That They Are Null And Void And Of No Effect".

According to the petition, the 39th and 40th and 41st Congresses, The Reconstruction Congresses, were no more than "private assemblages unlawfully attempting to exercise the Legislative Power of the United States". And that the "exclusions of the Southern Senators and Representatives from the 39th, 40th, and 41st Congresses were malignant acts of arbitrary power and rendered those Congresses invalidly constituted."

It is a great challenge to the people of the other states of the Union—to undo a wrong so long ago perpetrated on the South and on the Constitution. The United States of America, the champion of government by consent of the people, should make right her own house. And the citizens of the non-Southern States who believe in law and the constitution, should join with Georgia in the repudiation of these acts done in hatred and malice by a vengeful and illegal Congress.

## Revenge On Juries?

A new form of economic reprisal has been proposed by Harlem Congressman Adam Clayton Powell, Jr. According to the New York Times, Powell has suggested that Alabama Negroes consider boycotting businesses of jurors who acquitted two white men accused of bombing a Negro church in Montgomery.

Thus, citizens who were subpoenaed—not of their own free will—to discharge their public duty by serving on a jury are the suggested target of an Adam Clayton Powell-sponsored boycott, because their verdict does not please the Harlem Congressman.

The State Safety Commissioner at Frankfort has received notice that the City Council of Clay passed an ordinance in June to this effect. The ordinance was signed by Mayor Herman Clark, strong pro-segregationist and outspoken critic of state police and Guard intervention last fall.

According to reports, state police records indicate that Clay is the first city to withdraw such jurisdiction from State police.

This begins an interesting new development in the broadening contest of local government versus enforcement of decrees directly contrary to the popular will.

No substitute has yet been invented for courage and determination.

## Clay Favors Local Rule

State police no longer have the city's permission to operate in Clay, Kentucky, where troopers and National Guardsmen were used last year to coerce school integration at bayonet point.

The State Safety Commissioner at Frankfort has received notice that the City Council of Clay passed an ordinance in June to this effect. The ordinance was signed by Mayor Herman Clark, strong pro-segregationist and outspoken critic of state police and Guard intervention last fall.

According to reports, state police records indicate that Clay is the first city to withdraw such jurisdiction from State police.

This begins an interesting new development in the broadening contest of local government versus enforcement of decrees directly contrary to the popular will.

### THE SOVEREIGN STATES

Notes of A Citizen of Virginia  
By James Jackson Kilpatrick,  
distinguished editor of the  
Richmond News Leader  
Henry Regency Company  
64 E. Jackson Blvd.  
Chicago 4, Ill.; \$5.00

The interposition of State authority against unconstitutional action by the Presidency, Congress or Supreme Court has not been a regional device. Through all our American history, the individual states from Maine to California have had to cry out to protect constitutional rights of their people. These rights are seriously threatened today, declares James Jackson Kilpatrick in THE SOVEREIGN STATES, by uncontrolled federal power bent on stripping all the states of their legitimate authority.

Kilpatrick's thesis is that our nation is a Union of States: that the meaning of this Union has been obscured, that its inherent value has been debased and all but lost. Filled with vivid stories of American citizens engaged in meaningful political action from the Revolution to the present day, he writes with patriotic fervor and deep sincerity.

His vigorous, often witty analysis, makes it clear that preservation of sovereign rights of the states is not a regional weapon but the keystone of American liberty. Kilpatrick says, "The remedy is for the American people in their capacity as States to call a halt to this usurpation while there is still time to do so."

THE SOVEREIGN STATES restores the current debate on the tendencies invoked upon our Federal Union to the place where it belongs in a free Republic—at the level of popular interest and discussion.

### ABOUT THE AUTHOR

James Jackson Kilpatrick was born of Virginia and Louisiana ancestry in Oklahoma City, Oklahoma in 1920. In 1941 upon his graduation from the University of Missouri School of Journalism, he joined the staff of the Richmond News Leader as reporter under the late Douglas Southall Freeman, the distinguished historian. In June 1949 he was named Freeman's successor as editor.

This fighting young editor has since won for himself a position of wide influence in the Southeast, and national recognition in the form of awards from the University of Missouri and from Sigma Delta Chi, national journalism fraternity. He served recently as chairman of the National Conference of Editorial Writers.

### PRaise FROM SENATOR HARRY F. BYRD:

"Nothing is more obviously needed in this country in our time than a review of the fundamentals on which the greatness of our country rests—and return and rededication to the fundamentals."

"In THE SOVEREIGN STATES, Jack Kilpatrick, one of the nation's most brilliant young editors, has made a great and timely contribution to facilitate meeting this need. The book is a wonderfully documented presentation of a vital segment of the source of strength in our form of government. Every citizen of the United States would do well to read and study this work, and it is especially recommended to educators, jurists and public officials generally."

### PRaise FROM DISTINGUISHED SOUTHERN LEADERS

Senator Strom Thurmond says: "Mr. Kilpatrick is most able, both as a writer and as a historian. As an advocate of state sovereignty, he has produced a moving and revealing book. It is an interesting and vivid documentation of basic constitutional concepts which provides a storehouse of material on constitutional government."

I recommend the reading of this book to everyone interested in the preservation of our Constitution and of government based on the Constitution."

Donald Davidson of Vanderbilt University says:

"His message . . . is for every American who cherishes his American liberty, for every State of North, South, East or West that is willing and ready, as all ought to be, to safeguard those political institutions that the States of the Union were founded to preserve and, in fact are sworn to defend."

William W. Taylor, President-Elect of the North Carolina Bar Association, says:

"Mr. Kilpatrick has made a most valuable contribution to the cause of maintaining constitutional government in the United States. His book, THE SOVEREIGN STATES, should be read by all Americans who are concerned with the present Socialistic trend of the Federal Government and the usurpation of power by the Federal Courts."

This book contains a wealth of well-documented material to strengthen the hands of those who

# South's Foes Draw Blast From National Magazine

By TOM ETRIDGE

A new and apparently infallible formula for quick literary success has emerged in the United States.

Expressed in a single sentence, this formula is: "Damn The South."

So says the current (July) issue of American Mercury magazine, in one of the most candid and unusual articles yet inspired by the racial issue.

Entitled, "Why Pick on Dixie?", this article is written by Harold Lord Varney. He accurately diagnoses the anti-South campaign, which he says has been conducted on a nationwide scale for some time. The author cites various unfavorable propaganda disseminated by television, and motion pictures, deliberately calculated to put the South in a bad light.

## "DEFAME AND BEFOUL"

The present trend in opinion-moulding media, writes Varney, is to defame and befool the South. It is fashionable to slander and hold up to public contempt the 46 million Americans who happen to live below the Mason and Dixon Line.

The plain-spoken Varney says: "The South's right to observe its own folkways is being assailed in print and on platforms by potent national groups."

He lists these groups as the National Educational Association, the National Parent - Teachers Association, the League of Women Voters, Americans for Democratic Action, the AFL-CIO, the American Civil Liberties Union and the National Council of Churches.

## "INDOCTRINATION"

The American Mercury article further declares: "Indoctrination against the South is being taught openly in public schools. It permeates the newer textbooks and teaching aids. It is slipped into the books and comic strips. It is being preached from the pulpit by religious liberals."

"Briefly stated," Varney writes, the men and women behind the anti-South drive are the ones who have been trying since the days of Roosevelt to remake America in the image of their one-world, one-race ideology. It is the same inglorious crowd which has committed the United States to the United Nations, to UNESCO and to the Mrs. Roosevelt-written Covenant of Human Rights.

"To these schemers," the article continues, "the South was an obstacle that had to be removed. What better instrument was there to direct against the South than the Negro question?"

## "UNREPRESENTATIVE"

The American Mercury article says that most big magazines give assignments for stories about the South to race-obsessed foreigners like Gunnar Myrdal, the Swedish radical; Alan Paton (a blatant Negrophile from South Africa); or to "unrepresentative Southerners" like Mississippi's Hodding Carter, Harry Ashmore of the Arkansas Gazette and Lillian ("Strange Fruit") Smith.

Also accurately designated by Varney as an "unrepresentative Southerner" is Mark F. Ethridge, ex-Mississippi now promoting racial integration in Kentucky via his Louisville Courier-Journal.

## PROPAGANDA FUNDS

Author Varney declares: "All of the tax-exempt Foundations stand in solid ranks, with their billions, in determined opposition to the tradi-

## Musicians' Union Draws Color Line

The American Federation of Musicians, in effect, has acted to continue its policy of racially segregated locals.

The AFL-CIO union has shelved a resolution to outlaw segregation by referring it to the office of James C. Petrillo, federation president.

Indications continue that the rank and file of organized labor do not accept the integration demands of certain labor leaders, even as local church groups throughout the Southern states increase their opposition to integration policies of some church leaders.

## WHY DESEGREGATION WILL FAIL

(Speech delivered by Leon C. Burns, minister, at the Sunday evening worship services, West Seventh Street Church of Christ, Columbia, Tennessee, March 24, 1957.)

Copies postpaid from Rev. Leon C. Burns  
401 West 7th Street  
Columbia, Tennessee  
10 for \$1.00

tional Southern viewpoint. The Foundations have underwritten a controversial organization in the South — the Southern Regional Council. In the past three years, this Council has received a total of \$445,000 from the Fund For The Republic and sizeable sums from other leading foundations.

The powerful and vicious anti-South campaign is branded by Varney as "a shameful episode in the history of our times. It is also a disastrous experience for Americans. The United States, in releasing the anti-Southern heat waves, is weakening our most precious possession — the unity of the American people.

It will not be easy to recapture this unity after the present dementia is past."

## NATIONAL CIRCULATION

The American Mercury is an old established magazine with a steadily-growing national circulation, edited and published in New York. Despite the sympathetic tenor of his article, Harold Lord Varney is not a Southerner but a New Yorker, a champion of constitutional government and a well-established writer. Varney knows whereof he speaks in saying, "It is evident that most Northern editors are little interested in the Southern state of mind, but only in its denunciation."

## Letters To The Editor

### Urges Court To Mix Fish Schools

Justice Hugo Black  
U. S. Supreme Court  
Washington, D. C.

Dear Sir:

On a visit to Ft. Walton, Florida last summer I noticed a situation so terrible that it was hard for me to believe. I am told that nothing has been done to correct it so I am calling it to your attention.

At Ft. Walton they have a huge tank which contains every kind of sea life and for a small admission charge the public can get a look at fish they probably have never seen before. There is a gentleman there that points out each kind of fish and he says that the fish were dumped into this tank together and that they immediately segregated themselves. Now possibly the manager of this place has not had the opportunity to read the works of Gunnar Myrdal or any of the other modern scientific authorities but surely he knows that a situation like this is wrong.

I fully realize that these poor fish do not have a powerful organization like the NAACP to put pressure on a politically packed court but have you ever stopped to think how popular you would be with all the fishermen in our land if through forced integration you could give us a Bream with the fight of a Shark or a Crappie with the weight of the giant Sea Bass. The political potential here is enormous and should not be overlooked.

Possibly W. E. B. DuBois may have something to say on the subject of segregation in schools of fish and it might be wise to consult him. I am told that even though he has no less than seventy-two citations of Communist, Communist Front or subversive activities entered against his name in the files of the House Un-American Activities Committee he contributed to eighty-two portions of the book "An American Dilemma" which was cited in its entirety by your Supreme Court as its authority for its decision that segregation in schools was not constitutional.

Mr. Black, this might be a fine place for you to start another attack in your effort to change the normal way of living in your native Southern section of our country.

The place that I have reference to is the Gulfarium and I assure you that if any American can stand the horrible thought of voluntary segregation long enough to stop by this place they will see a show that is well worth a trip into this barbaric and savage section known as "The Deep South".

Yours truly,  
Walter H. Craig  
413 Lauderdale St.  
Selma, Ala.

### Knifing Freedom

Dear Editor:

When nine appointed Justices assumed unto themselves the power to amend the Constitution in the absence of approval by the people of the several states in the manner which is provided in the Constitution, they drove a knife into the heart of the American Constitution on that day of May 17th, 1954.

In Washington's Farewell Address to Congress we hear this admonition to all who shall live under the Constitution of the United States. "The Constitution which at any time exists until changed by an ex-

plicit and authentic act of the whole people is sacredly obligatory upon all . . . But let there be no change by usurpation; for though this in one instance may be the instrument of good, it is the customary weapon by which free governments are destroyed."

Very truly yours,  
William Mayer  
W. Palm Beach, Florida

### A "God Complex"

Dear Editor:

In recent years, more than ever, it would appear that any one who is elected or appointed to a position of power with life tenure acquires what is sometimes called a "God complex". This complex is encouraged by the lack of resistance which Bishops, Judges and sometimes Governors receive from the people they are chosen to serve. The Governor of our State is not eligible to succeed himself but, unfortunately, Methodist Bishops and Federal Judges have life tenure.

Bishop Lord wrote me a letter and said all men are brothers, equal, etc. Had he said all men are brothers-in-Christ, I could absolutely go along with such a statement, but I would add, not with brother-in-law. The Bishop speaks of all being equal. What does God's word mean in Exodus 20:10 regarding "man-servant nor maid-servant"? God was the maker of every race and he segregated them in different countries and they could not speak the same language. Now the top leaders in most churches, plus "Nine Old Men", want to mix us all up and if successful, one day there would be one Mongolian people.

St. Paul in 2nd Thessalonians, 2nd Chapter, 15th Verse, "Therefore, brethren, stand fast, and hold the tradition which ye have been taught, whether by word or our epistle". Friend, where in God's Word are we taught that segregation is unchristian? Abraham Lincoln said he did not favor the negro race intermarrying with the white people nor living together on terms of social and political equality.

In my opinion, there are a number of top church leaders and political judges that are doing more harm than a number of paid communist workers which, if successful would finally destroy our way of life.

Sincerely,  
C. S. Bennett  
Jackson, Miss.

### She Sympathizes

Dear Editor:

I am enclosing check for \$2.00 for subscription to your paper. I think each state should have a right to govern their own state concerning the Negro question.

I also think the Supreme Court Justices deserve impeachment. I have noticed now for several years they have been helping Communists get away with murder, so to speak.

I am just an old lady 76 years old. I get out very little, but I read a lot. I have very bad asthma, came here for my health.

I sincerely sympathize with the Southern states as they have so many more Negroes than the other states. And I can see what they are up against. The restaurants here don't serve Negroes.

I hope the Southern states will win in their efforts against this injustice.

Sincerely,  
Mrs. Hulda Contris  
Phoenix, Arizona

## A Manual For Southerner

**EDITOR'S NOTE:** The purpose of this series is to impart to our children a true understanding of their origins and the reasons for our bi-racial society. It serves also to present to Americans everywhere the basic causes for our position. Copies of previous installments will be sent upon request.

FOR GRADES 5 AND 6  
Section II Part 4

## FAMOUS SCIENTISTS SAY RACES ARE VERY DIFFERENT

First of all, let's see how we know so much about the races being different. Many famous scientists have studied the races of man for hundreds of years. These scientists have ways they can weigh and measure the skeletons and brains of the different races. And all of these men agree that the black, yellow, red, and white men are very different from each other. Scientists have studied the habits of the different races. They find that man's habits can be grouped by races. The white man has certain habits that are very different from the black man's. Some of these habits that scientists study are:

1. The way a race worships its God
2. The kind of laws a race makes for itself
3. The kind of music a race likes
4. The kind of art that a race makes
5. The things a race thinks are right and wrong

## RACES MIX THEIR HABITS LIVING AROUND EACH OTHER

In America the Negro has learned many of the white man's habits, and the white man sometimes copies the Negro. But if the races did not live around each other, their habits would be pure. The white man is very civilized, while the pure Negro in Africa is still living as a savage.

## RACE-MIXERS KEEP THE TRUTH FROM YOU

You do not read much about the differences in races or about the problems of Race-Mixing. This is because the Race-Mixers do not want you to know that the races are different. They want you to think the Negro and the white man are just alike. Why do you think they don't want you to know the truth about race differences?

## RACE-MIXERS WANT TO CAUSE TROUBLE

They do not want you to know that you are different from each other because they want to change the Southern Way of Life. They do not let the truth about race be printed in the papers or in your books. Instead of telling you the truth, they tell you pretty stories about how much fun it would be to live together. They tell you that the races are not different, but that a Negro is only a sunburned white man. The Race-Mixers want to cause trouble in the South and in America. In a little while we will see why they want to cause trouble.

## MIXED T-V SHOWS AND BALL GAMES ARE NEW

How often have you seen Negroes and whites together on T-V? The Race-Mixers want you to think it is all right for the races to mix. We have not always had mixed shows. The same thing has happened in baseball. Negroes and whites play on the same teams and use the same bath houses and dressing rooms. You are to think this Race-Mixing is good. And you are to worship players of a different race instead of players of your own race.

## RACE-MIXERS HOPE YOU WILL WANT TO MIX

If you learn to like Race-Mixing on T-V, on the ball field, and in the movies, the Race-Mixers hope you will want to live with people of different races. If you learn to like mixed sports and movies, the people who want the races to mix hope you will learn to like living together. Of course, you know this would be very bad.

## YOU AREN'T TOLD WHAT HAPPENS WHEN RACES MIX

But the people who want to cause trouble in America and in the South do not tell you what really happens when the races mix. Those people who believe in the Southern Way of Life and in their own race can tell you much about Race-Mixing. They try to get the news to you so you can know what happens when Negroes and whites live together.

## FALSE STORIES ARE TOLD ABOUT MIXED SCHOOLS

Do you remember when President Eisenhower made the white children go to school with the Negroes in Washington, D. C.? The Race-Mixers told many false stories about how the children liked going to school together. But again they did not tell you the truth. Here is what really happened when the races were mixed in Washington's schools.

## ARMED POLICE MADE CHILDREN MIX IN SCHOOLS

When the children and their parents learned that the Negroes and whites were going to have to go to school with each other, they were very upset. Some of the children would not go to school. They stood outside the schools and shouted against Race-Mixing. Some of the parents stood by and helped the children. These children were finally made to go to school by armed policemen.

## FORCE IS WRONG IN AMERICA

Now this force is something new in America. Our forefathers fought against the force of old King George. And now our own government is forcing us again to do things we know are not right.

## WHITE PEOPLE LEFT WASHINGTON

Many white parents saw that Ike's government is going to force the races to mix in Washington. So these parents took their unhappy children and moved out of Washington, D. C. And Negroes are moving to our nation's capital by the thousands. Before the races were mixed, Washington schools had many more white students. Now that the races are mixed, our capital's schools are mostly black. Do you blame the white people for moving away from a city where they were forced to go to school with Negroes?

## RACE-MIXERS WANT WHITES AND BLACKS TO DATE

Now that the schools are mixed in Washington, nearly all social activities are no longer taught. Who wants to dance with a boy or girl of another race? Could you enjoy a party where black and white children are mixed? The Race-Mixers even want Negroes and whites to date each other. They know that if the boys and girls share the school room, lunch room, dances, sports, rest rooms, and play grounds, then the boys and girls will want to date each other.

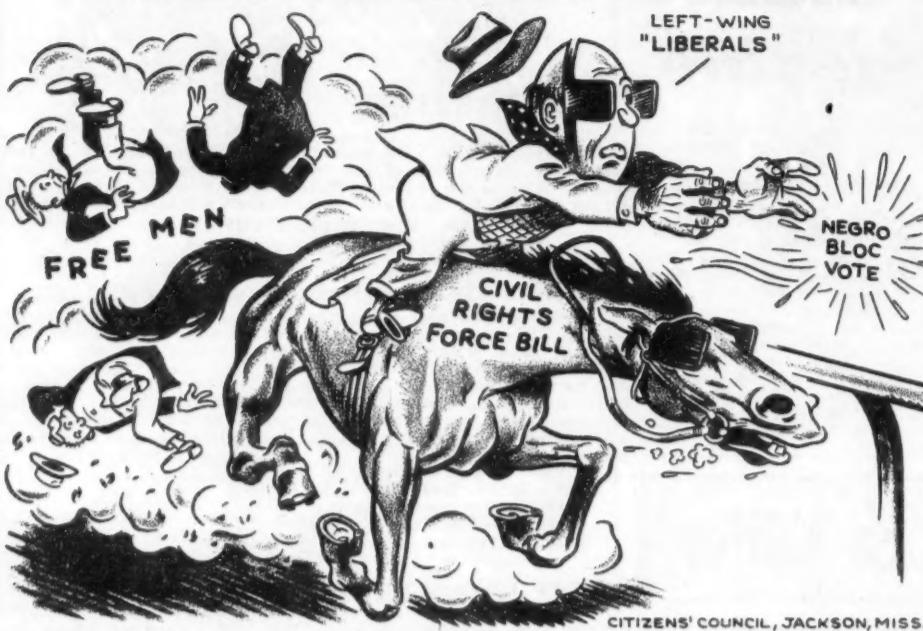

## WHITES LEARN FASTER THAN NEGROES

Negro children were way behind white children in their school work. This is because white children can learn faster than Negroes can. So the children could not do the same work in the same grade. This made them feel unhappy.

## WHITE AND BLACK CHILDREN SUFFER

The students were tested to see how fast they could learn school work. These tests showed that the white children can go much faster in their learning and work. When the races are mixed in school, the white children do not get as much education as they usually get. The whites have to wait for the Negroes to catch up.

## Victims Of The Race For Power

CITIZENS' COUNCIL, JACKSON, MISS.

## Reds Openly Talk Plans For Agitating The Racial Issue

(Continued from Page 1) effective federal executive intervention to stay the murderous hands of the Southern racists, to enforce integration in all aspects of public life, in all Southern states, now.

"2. The strengthening and broadening of the battle for the unfettered right of suffrage for all Southerners. The right to vote and to be voted for must not be restricted by race or property. Poll taxes, which persist in five Southern states, must be abolished. . . This struggle for democratic elections in the South must be buttressed by intensive campaigns to increase Negro representation (Negro congressmen, governors, legislators, sheriffs, mayors, etc.) on all levels of government, both North and South.

"3. An intensified struggle for equal employment and upgrading practices in all industries, everywhere in the nation. (This is the infamous F.E.P.C., already being forced in government contracts by presidential order without the sanction of law.) Apprenticeship training must be opened up to Negro youth on an equal basis with young white workers. The strengthening of the activities of the anti-discrimination committees of the AFL-CIO, and of international and local unions, should continue to be regarded as a matter of urgent concern for the labor movement. Special attention should be given to advancing Negro participation in the leadership of the trade-union movement at all levels. The American labor movement must be helped to understand that racism (segregation) and unionism are fundamentally incompatible. (This will doubtless be news to millions of segregated union members throughout the country.)

"4. The unfolding of major campaigns to break down segregation in housing. Housing segregation is another barrier to the unity of Negro and white workers. Public funds spent for housing developments, whether public or private, should be administered so as to combat Jim-Crow practices and make housing available to all who need it. (Residential integration also furnishes a first-rate opportunity to create racial incidents, agitation and propaganda.)

### SUPPORT NAACP

"5. Action for desegregation of public schools. In the South this requires support of the program of the National Association for the Advancement of Colored People and other organizations of the Negro people to accomplish desegregation of the schools in accordance with the mandates of the federal courts. . . In Northern communities the fight against school segregation, which is still widely maintained, (Northern metropolitan press please note), involves primarily the struggle to re-district school lines on an integrated basis. (New York City is doing this.) Fundamental to a correction of this discriminatory practice is the fight to end Jim-Crow housing.

"6. Intensifying the ideological struggle against racism. ("Racism" in this sense means any position short of total integration.) Since the Supreme Court decision of May 17, 1954, the country has been flooded with an ocean of racist literature, and television, radio and newspapers have been used in the South to saturate the minds of white masses with the false doctrine of white supremacy. The task of propagating the truth of the equality of all peoples, the necessity of convincing the white workers and the democratic masses generally that equal rights (complete integration)

for the Negro people is a matter of their own self interest, is more urgent than ever before."

### THE KEY

In conclusion, the resolution states, "The great labor movement of our country and all democratic forces in American life are called upon to recognize in the struggle for Negro rights the decisive task before the country today. The Communist Party sees in this struggle the number one challenge to action for all Communists. It is the portal to new advances in all spheres in the fight for social (communist) progress."

And lest there still remain any doubt as to the key to this "social progress" of the communists, we are told quite plainly: "Without the enfranchisement of the Negro masses in the South the road to an anti-monopoly people's government will remain blocked by the Dixiecrat reactionaries who dominate Congressional committees by virtue of the disfranchisement of Southern masses."

Finally, "The Communist Party of the United States pledges itself to the accomplishment of this task."

### BOOKS

(Continued from Page 2)

believe that the continuation of a Federal form of government, as contemplated by the Constitution, is worth fighting for. I commend it, especially, to my fellow North Carolinians, who, traditionally, have been zealous in maintaining individual liberty under law and in asserting the sovereign rights of their State.

John Temple Graves, Birmingham, Alabama, Columnist of the Post writes:

"As its philosopher and its man of action, too, the sovereignty of the states has no one today who quite equals Editor Kilpatrick. As much as this book needed to be written, he needed to be the one to write it."

### Women Molested

Dear Editor:

I was in Downers Grove, Ill. last night, and a friend of mine said in parts of Chicago they had posted signs that said in case of accidents don't stop, but drive to a police station.

They said Negroes would bump cars of white women and when they stopped to see about the damage they were molested.

"A Reader"  
Syracuse, Indiana  
(Name withheld for protection)

### ALL-NEGRO CAPITAL

Item from the COLUMBUS (Ohio) DISPATCH: "Negroes, who made up some 20 per cent of the capital's population 25 years ago, now constitute an estimated 40 to 47 per cent of Washington residents and there are predictions that it will be almost all Negro in the next 20 years."

## Veterans And Councils Blast VA Integration

(Continued from Page 1)

vigorous protest, and has petitioned Congress for relief, in which action this Board heartily concurs.

Our people should know that the very same left-wing pressure groups which caused the executive department to integrate veterans hospitals, and indeed, the armed forces of the nation, have also instigated a vast multi-million dollar program of residential integration known as "Free by Sixty-Three". (1963 being the 100th Anniversary of the Emancipation Proclamation.) The United States Supreme Court has deprived private citizens of the protection of the law in such respects by striking down restrictive covenants.

The location of a large integrated hospital, with a large integrated staff, in any residential area, as proposed for North Jackson, in close proximity to schools and parks, such as Power Elementary, Bailey Junior High, Murrah High and Riverside Park, would be an open invitation to demands for non-white housing accommodations in sections like Fondren, Woodland Hills, Belhaven Heights and other convenient neighborhoods, as well as demands to integrate schools in such areas.

The directors of the Jackson Citizen's Council are alert to the situation, and feel they would be remiss in their public responsibility if they failed to call the attention of all good Mississippians to these consequences for their capital city.

This is part of a pattern that calls for alert and unified action by property owners, veterans groups, and other interested organizations and individuals before it is too late.

**COUNCIL THANKS TEACHERS**  
The Amite County (Miss.) Citizens' Council is grateful to the Principals and Teachers of the county schools for their interest in the essay contest conducted by the Council. Every essay submitted was a fine expression of the youth of the county with Miss Martha Cobb of Crosby winning first place.

Homer L. Smith, Chairman, A. T. Ratcliff, Secy. & Treas. Amite County Citizens' Council.

**LAMP UNTO OUR FEET**  
"I have but one lamp by which my feet are guided, and that is the lamp of experience. I know of no way of judging of the future but by the past."—Patrick Henry.

## 'Liberalism' Backfires:

## Southern Churches Balk At 'Social Gospel' Propaganda

Intensive campaigns by hard-core committees of "liberal" preachers to induce desegregation within their denominations have begun to backfire.

Obviously out of step with the vast majority of lay members, these integration campaigns are resulting in a steady drum-fire of counter-action from local churches.

### Sample reactions—

**Southern Methodist Church, Florence, S. C.**: "We strongly object to our sons, daughters, wives, husbands, other loved ones, relatives, friends, and ourselves being forced by our government to mix socially with, train with, work with, fight with, sleep with or close by, eat with or close by . . . members of races other than the Caucasian race."

**First Baptist Church, Grenada, Miss.**: "Because of the dictatorial attitude of the (Christian Life) commission, by attempting to speak for, and leading the public to believe that it speaks for Southern Baptists, no allocation is to be made henceforth to the Christian Life Commission . . . out of funds given by First Baptist Church, Grenada . . . We do and herewith petition the Southern Baptist Convention to abolish the Christian Life Commission; . . . and to return the sum of \$15,000 accepted by the Christian Life Commission from the (Ford Foundation's) 'Fund for the Republic'."

Hugh G. Grant, Augusta, Ga., former U.S. minister to Albania and

Thailand, member of the First Baptist Church at Augusta, where the Southern Baptist Convention was organized 112 years ago, wired the president of the Southern Baptist Convention: "The report of the Christian Life Commission (for enforcement of integration) constitutes insidious propaganda and a gross libel against millions of law-abiding white Southerners."

**First Presbyterian Church, Jackson, Miss.**: "Exercising that freedom which we believe to be God-given and truly Christian, we reaffirm the right of private judgment in all secular matters; we respectfully but firmly challenge the authority of the General Assembly to handle, or make deliveries concerning social, political or economic questions; and we call upon all likeminded lovers of freedom and of truth in the church to join us in opposing and resisting by all reasonable and proper means the attempt to use the courts of the church as agencies for partisan propaganda, and thus to divert the church from its spiritual mission. Furthermore, in order to implement our convictions that the Council of Christian Relations, as presently organized and operating, is an unnecessary and disturbing agency of the church, we direct the Treasurer of this church to withhold that portion of the Assembly benevolences allotted . . . to the Council of Christian Relations . . . until such time as the Assembly may see fit to abolish the Council of Christian Relations . . ."

## Tennessee Federation's Freedom Fund For Clinton

This month (July) the South goes on trial at Clinton, Tennessee. Although the 16 patriots of that community will be the ones who have the misfortune of having to suffer the hardships of a prolonged jury trial, all citizens of every section will have their futures shaped by the outcome. It is to the credit of the great state of Georgia that their very distinguished governor was among the first to offer assistance. The attorneys general of Louisiana and Texas were also quick to offer their services.

From the very beginning it was the Tennessee Federation for Constitutional Government that seized the initiative with a determination that these people of Clinton were entitled to a jury trial. Their only guilt appeared to be that of exercising their rights of freedom of speech and assembly. The federation took the lead in providing legal counsel and established the "Freedom Fund for Clinton" with an appeal to Southern states for contributions. Unlike the integrationists who seem to be able to get help from the Communists and/or the left-wing foundations, the appeal for money has to be directed to individuals (patriots) who are sincerely interested in maintaining state rights and separate schools. The people at the Grass Roots are coming through. Sometimes it is only a few cents but regardless of the amount their heart is in the right place.

For further information the following data is submitted:

Counsel is composed of distinguished attorneys from Alabama, Louisiana, Maryland, Texas and includes ten members of the Tennessee Bar.

Jack Kershaw, of Nashville, Chairman of the Fund, is State Vice-Chairman of the Tennessee Federation for Constitutional Government.

Dudley Gale, of Nashville, Treasurer of the Fund, is an insurance executive of the firm of Gale, Smith & Company, and a member of the

Board of Regents of the University of the South.

**Samuel J. Galloway**, of Nashville, Assistant Treasurer of the Fund, is the attorney for Aetna Casualty and Surety Company, Claim Department.

Affairs of the Fund are under the supervision of an Administrative Committee with the following members: **Raulston Schoolfield**, of Chattanooga, Criminal Court Judge and former candidate for Governor of Tennessee; **Warren S. Webb**, Certified Public Accountant of Memphis, prominent in the Tennessee struggle to maintain constitutional government; **Donald Davidson**, of Nashville, State Chairman of the Tennessee Federation for Constitutional Government and professor of English, Vanderbilt University.

Any money left over from the defense of the Clinton Sixteen will be transferred to a general legal fund for the defense of other citizens in other parts of the country who may need defense as did the sixteen. Jack Kershaw of Tennessee, William F. Shaw of Louisiana, and Carter Pittman of Georgia, in cooperation with all our organization leaders, are now working on setting up this organization.

Careful record of receipts and expenditures is being kept, subject to audit. Every effort is being made to keep down "over-head expenses." Officials of the FUND serve without compensation.

Contributions should be addressed to Freedom Fund for Clinton, Box 122, Nashville, Tennessee. Checks should be made payable to Dudley Gale, Treasurer.
